

Independent Garage Award For IGC

IAN Gordon Commercials won an award at last month's Skillmiles Alba presentation held in Glasgow in conjunction with the annual SMTA dinner.

The Stair, Ayrshire, CV service specialist landed the top Independent Garage Award, the first time it has been given to a commercial vehicle garage.

The award citation revealed that the family business was founded in 1987 with the specific aim of providing a personal, efficient and cost effective quality operation for the maintenance and service of heavy goods and PSV vehicles.

The company has actively promoted career development opportunities within the industry and has a robust attitude to skills development for all their staff.

They have taken a pro-active approach to the future skill requirement of their workforce and have created a full training programme to ensure they are best placed to meet the needs for tomorrow's heavy truck and commercial operator.

They have recently proposed the entire staff for Institute of the Motor Industry (IMI) membership, endorsing the need for continuous professional development.
